Programs focus on topics including art, architecture, fashion, child care, humanities, physical education, cultural geography, anthropology, literature, theatre, music, geology, philosophy, religion, urban problems, psychology, and management. FOREWORD

The following pages represent the response to a questionnaire sent out in January to members of the AACJC International/Intercultural Consortium about overseas summer programs.

The programs are listed alphabetically by world region and country. Multi-country programs are listed first in each region.

All of the programs at the IIC colleges are open to other IIC member colleges' students. Anyone interested in any of the programs should contact the person responsible for the particular program and not the IIC Washington office.

A special thank you to the people who took the time to fill out and return the questionnaire so that we are able to share that information with others.
